(In Association with La Lucia Junior Primary School and Virginia Preparatory School)

1st September 2015

Dear Eddie,

On behalf of all the children, teachers and parents at Christopher Robin, I would like to thank you most sincerely for the AMAZING work you did in building our Multipurpose Room. From the very beginning, your honest and thorough approach to just the tender process meant that you made an impression! I so appreciated the way in which you accommodated all our needs during the building process, and working on the periphery of a busy Pre-Primary School meant that there were many of these! Thank you for heeding all our requests as this ensured that I was not worried about the safety and security of the children and the property at any stage during the build.

I so enjoyed getting to know you and working with you, often on a daily basis, discussing the progress as the build went along. I must also commend you on your staff who conducted themselves in an almost professional manner. We often commented on the fact that they were so unobtrusive but very hard working. As a result, the build progressed so speedily that I can honestly say that it was a largely painless experience which is almost unheard of these days!

Many parents commented, and have continued to comment, on the fact that the completion of our project came about so quickly; that the quality of work is exceptional and that they were impressed with your workers. This is high praise from our parent body, many of whom own their own businesses. I am sure that the advertising done by your high quality of workmanship and management is worth much more than any advert you could have submitted for publication!

In short therefore, THANK YOU PROUDCON for all you have done to make this such a pleasant experience and I will definitely ask you back to do any further building our school may require in the future!

With grateful thanks and kind regards,

Jean Gibson
